

Tired of Changing Cylinders?

Generate Beer Gas On-site.

Increase Draught Beer Revenue by

- improving quality
- reducing waste
- eliminating beer gas cylinders
- enhancing presentation

Hundreds of generators installed Canada-wide.

 Canadian owned and operated

Quality | Convenient | Cost Effective

Our system is the best way to maintain the quality of your draught beer, is far more convenient than high-pressure, pre-mixed cylinders and will save you money. Our system produces beer gas by generating nitrogen on site and then blending it with your house CO₂. We will provide you with 2 separate gas blends, a 75% nitrogen / 25% CO₂* blend used for stout beers like Guinness, Kilkenney etc. and a 40% nitrogen / 60% CO₂* blend used for most domestic and craft beer. These blends are the optimal way to maintain the proper carbonation level in all your draught beer, increasing keg yield by 3-5% over pre-mixed cylinders. 99.8% Nitrogen is also available if you have or are considering wine or cocktails on tap.

*blends can be adjusted to fit your preference.

Specifications

BGS100T

- N₂ Purity - 99.8%
- N₂ Production - 3 CFH
- Maximum kegs / month - 60
- CO₂ inlet pressure - 55 psi
- Dimensions - 33" x 14" x 9"
- Weight - 75 lbs.
- Noise level (dbA) - +/- 60
- Electrical - 115 vac 7amp 60Hz
- Mounting - Wall or Floor
- Storage tank - 135 litre (30 gal.)

BGS300T

- N₂ Purity - 99.8%
- N₂ Production - 7 CFH
- Maximum kegs / month - 270
- CO₂ inlet pressure - 70 psi
- Dimensions - 33" x 14" x 9"
- Weight - 75 lbs.
- Noise level (dbA) - +/- 60
- Electrical - 115 vac 7amp 60Hz
- Mounting - Wall or Floor
- Storage tank - 135 litre (30 gal.)

BGS300DT

- N₂ Purity - 99.8%
- N₂ Production - 10 CFH
- Maximum kegs / month - 400
- CO₂ inlet pressure - 70 psi
- Dimensions - 33" x 14" x 9"
- Weight - 85 lbs.
- Noise level (dbA) - +/- 60
- Electrical - 115 vac 7amp 60Hz
- Mounting - Wall or Floor
- Storage tank - 135 litre (30 gal.)

BGS1000QT

- Stadiums and Micro-Breweries
- N₂ Purity - 99.8%
- N₂ Production - 35 CFH
- CO₂ inlet pressure - 70 psi
- Dimensions - 41" x 14" x 18"
- Weight - 180 lbs.
- Noise level (dbA) - +/- 75
- Electrical - 115 vac 14amp 60Hz
- Mounting - Floor only
- Storage tank - 270 litre (60 gal.)
